

LEGALIZATION

Legalization of documents- it is special procedure that is taken in Ministries and Consulates and is needed for official documents to have legal force on the territory of foreign country.

The essence of legalization is the confirmation of the power of signature, seal or stamp of the governmental authorities who issued the document.

So, the goal of legalization is to make the document issued for example on the territory of Ukraine to be valid on the territory of another country.

In ABEA you can order such services:

Consular legalization

Apostillization

Nostrification
